THAT ZEPPLIN RAID

Yesterday the Kaiser launched his latest raid of Zeppelins over Britain, and a raiding several towns on the North coast of England, doing considerable damage and taking a large number of prisoners. Of course, this is not war. It is murder, massacre. The weather conditions were favorable, in fact, just what a raid had been predicted. This week, outside of London, it is doubtful if any preparations had been made to prevent it. More or less, it was a surprise. The German airship, however, was not so lucky. It was shot down by a British ship, and the crew was captured. The ship was a Zeppelin, and it was shot down by a British ship, and the crew was captured. The ship was a Zeppelin, and it was shot down by a British ship, and the crew was captured.

The fact that the German airship was shot down by a British ship, and the crew was captured, is a great victory for the British. It shows that the British are not only capable of defending themselves, but also of attacking the enemy. The German airship was shot down by a British ship, and the crew was captured. The ship was a Zeppelin, and it was shot down by a British ship, and the crew was captured.

When a German squadron failed the British coast, the British coast was not only defended, but also attacked. The German airship was shot down by a British ship, and the crew was captured. The ship was a Zeppelin, and it was shot down by a British ship, and the crew was captured.

The formal opening of a delivery service in W. C. A. building on the west side yesterday afternoon completed the great work in which the ladies have been engaged for some years in providing a suitable home for the young women who have to board out, and the ladies are to be congratulated on the splendid success of their undertaking. The benefit of such a home in a city like Hamilton cannot be overestimated.

The United Relief Association has asked the city for \$50,000 to enable it to carry out the work of relieving the unemployed. To far as we can judge, the association is an exceedingly large one, and the money it needs should be forthcoming. At the beginning of the season the situation looked very serious, but owing to the generosity of the citizens and the management of the matter by the United Relief, it is now a different story. It is hoped that this grant will enable the association to continue its work until little more relief will be necessary.

ZEPPELINS IN THE AIR

Attempt Was Timed to Kill the King at Sandringham.

Several Towns Bombed and Five Reported Slain.

London, Jan. 19.—German aircraft made their long-throated raid on England last night and attempted to blow up with bombs the King's royal residence in Sandringham, County Norfolk.

This intention was ill-timed, for King George and Queen Mary, with their family, who had been starting at Sandringham, had returned to London yesterday morning to resume their residence in Buckingham Palace. It is still not definitely known if the raiders were Zeppelins or aeroplanes, but Zeppelins were reported yesterday afternoon as passing over the North Sea in a number of places and most of these reports said that events led to the belief that these were the raiders.

The night was quite calm, but very dark and cloudy, which made it impossible for the people in the towns over which they passed to distinguish even the outlines of the craft, and the white glare of their engines and the glowing of their motors could be distinctly heard.

A Zeppelin is reported to have been shot down by the fire of the coastal battery at Hunstanton, a few miles north of Sandringham.

It was dropped in Yarmouth, King's Lynn, Sandringham, Cromer, Sheringham and Boston, and various other places, and caused considerable damage and property lost.

THE TOWNS VISITED.

The towns of Yarmouth, Sandringham, King's Lynn, Cromer, Boston, Sheringham and Hunstanton are all situated in the County of Norfolk, which sits the North Sea about 100 miles northwest of London.

Yarmouth, known as Great Yarmouth, and Cromer are favorite winter resorts of the King. King's Lynn is a market town. It contains shipyards, a railway station, a cinema, a gas works, and a number of other industries.

The aircraft which made the attack were evidently the same three reported as having passed over the North Sea in the County of Norfolk, which sits the North Sea about 100 miles northwest of London.

THE FIRST CASUALTIES.

The first place visited was the well-known seaside resort and fishing town of Sandringham, where the King and Queen were taken by surprise at the sudden visit. Two persons, a man and a woman, were killed and several others were injured, and much damage to property was done.

The Height of Delight for a Mite!

Zeppelins could travel during the night. Atmospheric conditions at present are entirely favorable to such a raid. After the recent stormy weather there has been a period of calm and an absence of rain, with the clouds, but not bright enough to make air craft easily distinguishable by the naked eye from the dark.

It was a difficult task to find the Zeppelins, but they were seen at Sandringham, King's Lynn, Cromer, Sheringham and Boston, and various other places, and caused considerable damage and property lost.

A CHURCH RULING

Restriction On Ministers Marrying Soldiers.

An order issued yesterday by Rev. Dr. S. D. Chown, General Superintendent of the Methodist Church in Canada, will cause some thinking among the soldiers who are going to the front, who had anticipated becoming benefactors before leaving. The order is to the effect that no Methodist minister is to marry a couple, one of whom is a soldier, unless they produce a written consent from the wife or her husband or of someone in authority, and one from the officer commanding the man's regiment. As Hamilton is one of the mobilization centres, the local ministers may have some trouble with this line, as it is either up to them to marry the couple or let a minister of another denomination perform the ceremony. It is generally considered, however, that the ruling is a good one.

SMALL FIRES

House of Late "Dr." Mutter Not On Fire.

Yesterday afternoon the fire brigade was called to the residence of Sir John M. Gibson, where a defective coal grate caused a great deal of smoke to escape. The firemen were sent to the bottom of the trouble, and the damage amounted to about \$50.

This morning fire broke out at 25 Erie avenue, in the home of the late Anthony Mutter, now vacant. The firemen were at a loss to know the cause of the fire, which started in the back, but believe that someone may have been sleeping in the house. The house is where "Dr." Mutter resided for years and was redecorated and painted last summer and left with clean open-up looking in admirable condition to accept its hospitality.

WAR ORDERS

Hamilton Will Make Lots of Military Clothing.

That Hamilton manufacturers are to make a large number of uniforms for the soldiers again is felt certain, for the clothing which has gone from the city was all used, and the clothing, according to the report. The largest order for military clothing has yet been let was distributed yesterday to the clothing manufacturers throughout the Dominion. The order will amount to \$400,000, and will be for about 600,000 coats and trousers. This will keep many of the plants in the different cities running to capacity, night and day, until the beginning of April.

JUDGE CRITICIZES NEWSPAPERS.

(By Times Special Wire.) Toronto, Jan. 20.—When the trial of Harry Green, S. C. and Dr. P. G. Hughes, director of the Defense Unit, resumed this morning, Justice Giesbregt sharply criticized newspapers, which he said, had accused the guilt of the prisoner. He had received complaints about this. "Such action by newspapers constitutes contempt of court. I am sure they will not let it occur again."

NO EMBARGO

President Has No Right to Ban Food Exports.

(By Times Special Wire.)

Washington, Jan. 20.—President Wilson has no authority to declare an embargo on the exportation of wheat and other foodstuffs, he told callers yesterday, discussing recent increases in food prices in the United States. Such authority must come from Congress, he said, adding that he had not investigated the constitutionality of such a step. He did not commit himself on the advisability of an embargo act.

The President said nothing could be done by the Government toward regulating prices, unless illegal practices by merchants were disclosed by the investigation he has directed the Attorney-General to begin.

OFFICERS' CLASS

And Sergeants' Mass Meeting of the Home Guard.

Yesterday at 8 o'clock a meeting of the officers of the Hamilton Home Guard Association was held in the headquarters, 20 King street east. The meeting was for the purpose of electing officers for the coming year. Among the speakers were Major General, Captain, and Sergeant. The meeting was very successful and the officers were elected. The meeting was very successful and the officers were elected.

CONSPIRACY

Miners Plead Guilty in Arkansas Court Case.

(By Times Special Wire.)

Fort Smith Ark., Jan. 19.—Seven defendants in the Prairie Creek Coal Mine conspiracy case pleaded guilty when they appeared for trial in the Federal Court here today. Among them were Peter R. Stewart, Alister, former President of the United Mine Workers of America, David B. B. and Fred W. Held, of McLeister, former secretary of the district union.

The others were James B. McNamee, former member of the City Council of Hartford, Ark., a former constable of Hartford township, and Clint Burris, handy Robinson, and John Maskey, miners. All of the men were charged with conspiracy against the Government. They will be sentenced later.

WOMAN LAWYER

McGill Lady Student's Case Before the Courts.

(By Times Special Wire.)

Montreal, Jan. 20.—The case of Mrs. Annie Langstaff, the McGill law graduate who applied to the Quebec Bar Association for permission to study law, and who was refused, came before Judge Poirer this morning. Mrs. Langstaff is appealing from the decision of the bar association. Counsel for the association said the laws of Quebec did not allow a woman to practice law, and that, as Mrs. Langstaff was not a woman, she was not allowed to practice law.

Langstaff's application was the first of its kind in the province. Counsel said that there was no appeal from the decision of the association. The case is continuing.

Pencils For All Purposes

Many people are very particular in buying lead pencils. This is as it should be. A pencil, to give satisfaction, must be exactly suited to the purpose intended. In order to please particular people, we stock over 225 styles of pencils. For bookkeepers, artists, draftsmen, carpenters, steel workers, factory workers and students we have special styles. We import direct from the manufacturers, and consequently our prices are low.
